

4-Channel DMX Booster

- Universal optical DMX-512 splitter
- Distributes the incoming DMX signal into daisy chain configurations in four separate outputs with an additional "thru" port
- For easy connection the DB-1-4 has 3-pin and 5-pin XLR connectors
- The device can be installed into any 19" housing or via the M10 mount clamp on the back of the device
- The light controller has distinct LEDs to display the DMX signal status of each output and input

Specifications:

- 1x Input, 4x outputs: 3-pin and 5-pin
- An additional thru output: 3-pin and 5-pin (for connecting to other data streams)
- Electrical isolation between in- and output
- Format: 19" / 1U
- AC Power: Auto-switching 100 V - 240V 50/60Hz
- Dimensions (LxWxH): 483 x 134 x 46 mm
- Weight: 2.6 kg
